Member of the Ministry
Presentation by Valdete Avdiu-MAFRD-Kosovo

www.mafrd.gov.net

The MAFRD/Kosovo is kindly asking for technical support for the Kosovo National Parliamentary Process:

- ❑ Construction of the **Concept Document** of the new Kosovo National Law on organic production and labelling of organic products.
- ❑ The MAFRD must deliver this Concept Document to the Kosovo Parliament, and justify the reason why the transformation of the Regulation No 2018/848 of the EU-Council and the EU-Parliament into the new Kosovo National Law on Organic Production and Labelling of Organic Products is obligatory.

- ❑ Formulation and Implementation of the Regulation No 2018/848 of the EU-Council and the EU-Parliament into the new Kosovo National Law on Organic Production and Labelling of Organic Products.

The MAFRD already prepared a draft (transformed the Regulation No 2018/848 to this new Kosovo National Law on Organic Production and Labelling of Organic Products), and

- ❑ the MAFRD needs an international expert for revision overview, review, as well as adjustment if it seems necessary of this prepared MAFRD-document.

After the Parliamentary legislative procedure will finish, and the new Kosovo National Law on Organic Production and Labelling of Organic Products will be issued to the public, the MAFRD will need support for:

- ❑ The adjustment of the current MAFRD-Administrative Instructions and formulation of new Administrative Instructions as they will seem necessary,
 - ❑ Formulation of new MAFRD-Implementing Acts as these will be adequate and necessary to the new Kosovo National Organic Agriculture Law and to the Administrative Instructions.
-
- At now, and in the coming year, the MAFRD is working on this comprehensive material step by step.
 - We will complete the introduction of all these parts, mentioned above, in Kosovo into the praxis in 2024
