# Work plan for implementation of marketing standards for fresh fruit and vegetables in 2023/2024

MONTENEGRO

# Law on Regulation of the Market of Agricultural Products

- Official Gazette MNE No. 15/2017
- Conditions for placing agricultural products on the market
- Amendments to the Law on regulation of the market of agricultural products

(EU Accession Program, 2022-2023, Government Work Program 2023, Strategy for the Development of Agriculture and Rural Areas 2023-2028)

- IIIQ/2023

# Rulebook on general and specific standards for marketing fruit and vegetables

- Official Gazette MNE No. 40/18
- Control is carried out by the Directorate for Food Safety, Veterinary and Phytosanitary Affairs' inspectors or a legal entity registered and authorized by the MPSV - "authorized producer".
- Importers and exporters are registered, and the standards are checked, but the forms are not filled out
- Small producers, and those with products sold in local green markets, fairs, and those selling on their farms are excluded
- Based on UNECE standards
- Planned to be changed through the EU Accession Program of Montenegro, Government Work Program and Strategy for the Development of Agriculture and Rural Areas 2023-2028
- TAIEX support
- IVQ/2023

# List of traders

- Register of Agricultural Farms, the Register of Primary Food Producers of Plant Origin, the Register of Organic Producers
- It's establishment is planned through the IPA project 2022-2024.
