

The role of youth in agriculture and rural development in the WB

Next steps: youth survey

Tom Dufhues

Ernährung, Landwirtschaft und Forsten

Data cleaning

- Spelling and coding errors
- “other”-mistakes, but more will appear after translation (see next slide)
- 2,158 interviews conducted
- In total, 117 interviews were excluded:
 - Interview length of under 10 min. (109 cases)
 - Partial racing, 30% of questions in under 3 sec. (5 cases)
 - Checking others + comment section (3 cases)
(1 from Greece, 1 “not serious”, 1 aggressive)
- Final report sample is 2,041
- The data sheet, codebook, and first descriptive tables are shared

Next steps

- “Other”-free texts need to be translated
- Some minor data inconsistencies still exist (e.g. people clicked the wrong button)
 - To be dealt with that on an individual analysis basis (either correct it or change single variables to missing)

Future data usage:

Publish data on a repository, e.g. with GESIS?

- More work is needed to prepare the data set
- Needs to be decided by SWG and FAO
